PROFILE

I have curious mindset and find interested in all aspects of design and architecture. During my journey so far I have had the opportunity to have worked on a varying scale of projects from graphical design and furniture, to villas, high-rises and large scale master plans in most corners of the world. Starting all projects with first principles of embedded environmental design, location specific knowledge and proven techniques as well as researching and implementing the latest construction materials to enhance the spaces that I design for people and the environment.

My driver for designing lies in the theory and philosophy behind how we as humans in a cultural context inhabit space by visually and in a haptic manner interpret our surrounding environments. My strengths are multifaceted in my ability to work and sculpt in 3d and visualise complex problems parametrically and understanding how to effectively bring projects from concept to construction documentation.

PROFESSIONAL EXPERIENCE

Founder / August 2021 to Present

Nordic Architecture Lab, Canberra, Australia

Lately, my passion has been centered on establishing a compact international design consultancy that specializes in creating architecturally responsive, sustainable, and functional buildings. We partner with businesses to add value and provide capability for complex design systems, design visualisation as well as environmental analysis.

Senior Project Professional / December 2019 to May 2023

AMC Architecture, Canberra, Australia

In my recent role at AMC Architecture, I served as the team leader for a large-scale adaptive reuse project, the Finlay Crisp redevelopment in Canberra. Additionally, I oversaw the development of concepts, documentation, and construction for new build commercial offices for the Department of Health (DoH) and TGA Laboratory in Fairbairn, as well as a significant commercial building in Brindabella Business Park. I maintained and managed relationships with subconsultants, clients, and contractors to ensure timely and budget-conscious project delivery.

Associate / September 2018 - October 2019

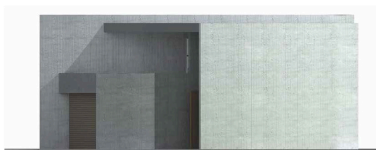

CallisonRTKL, Dubai, UAE

At CallisonRTKL, I held the position of team leader in the Workplace stream. In this role, I was responsible for designing and documenting commercial office towers internationally, including projects in China, Saudi Arabia, and Dubai. Notable projects during this tenure include the HSBC Bank Riyadh, Jumeirah Emirates Towers Redevelopment, and Al Marsa masterplan in Ajman.

Senior Architect + Design Lead / June 2016 - September 2018

Hopkins Architects, Dubai, UAE

At Hopkins Architects, I served as the Architecture and Facade Design Stream Lead for the Thematic Districts at Expo 2020. Despite the challenging timeframe, I successfully delivered a world-class project. My primary responsibilities included designing and coordinating facades, key feature shade structures, legacy transformation, and mock-up and design development. This client-facing and strategic role required managing

multiple concurrent work streams and design teams.

Senior Architect / January 2016 - June 2016

LW Design, Al Sofou 1, Dubai, UAE

During my tenure at LW Design, I led a project involving multiple embassy projects in Rabat. As the project lead, I worked closely with the client and coordinated the efforts of subconsultants to ensure successful project completion.

Senior Architect / January 2015 - January 2016

BDP MENA - Al Jahili Tower Abu Dhabi, UAE

At BDP MENA, I served as the Design Team Leader for large mixed-use projects in the region, focusing on commercial and residential programs. In close collaboration with clients and consultants, I ensured the delivery of valuable products with exciting and timeless design languages. Alongside design development, my responsibilities encompassed client liaison, management, business development, as well as some training and recruiting.

Design Architect / January 2011 - December 2014

Woods Bagot - 76 Oxford Street, W1D 1BS London

In this role, I primarily focused on the look and feel of various projects, specializing in facade design, concept design, and parametric development. Working closely with clients and consultants, I aimed to deliver exceptional design solutions.

Architect / July 2010 - November 2010

Make Architects - 13 Fitzroy Street, W1T 4QB, London

During my time at Make Architects, I was responsible for devising and partially leading project and facade design for a world-class aquatic center sports complex.

Architect / October 2007 - July 2010

Foster + Partners - 22 Hester Road SW11 4AN, London

Within Foster + Partners, my main focus was on developing exciting conceptual designs for competitions, with a particular emphasis on enhancing the visual appeal of our designs.

Architectural Assistant / October 2007 - July 2010

FOJAB ARKITEKTER - Lund, Sweden

At FOJAB ARKITEKTER, I contributed to facade development and the planning of multi-tenant residential projects in southern Sweden.

Architectural Assistant / 2003 - July 2004

SJB Architects - Melbourne, Australia 2003-2004

During my time at SJB Architects, I participated in the development of master plan projects in China, as well as the visualization and development of residential projects in Melbourne.

Designer / 2002 - 2004

Tom Kovac Architecture - Melbourne, Australia

Working closely with Tom Kovac, I engaged in the development of architectural and product design projects of various scales, ranging from glassware design for Alessi to pavilion designs in Venice.

Architectural Assistant / 2003 - 2004

Urbis JHD - Melbourne, Australia

At Urbis JHD, my responsibilities involved developing master plan designs for several Chinese cities and effectively visualizing and communicating these designs.

 EDUCATION & CERTIFICATES

2005-2007 Completed Master of Architecture, Lund University, LTH, Sweden

2002-2004 Commenced Bachelor of Architecture RMIT University, Australia

Since 2008 SAR/MSA, Member of Swedish board of architects

Since 2009 ARB (UK) Member Architects registration board

Part time Lecturer at Oxford Brookes 2011, Diploma review panel for AUD

(Dubai)

TECHNICAL SKILLS

I am great at collaborative work, I am very comfortable to take lead in Projects / Design, I work fluently with parametric design techniques including scripting. I am good at time management and Visual and Oral Communication.

Rhinoceros 7 + Grasshopper + Rhino Script, Rhino Common / Python (Expert), 3dStudio Max 2022 + VRAY + Twin Motion (Good), Revit 2022 (Excellent), Adobe CC Suite (Excellent), Microsoft Office (Excellent), Solemna

LANGUAGES

Swedish (Native)
Python, VB Script (Proficient)

English (Fluent)

ACOMPLISHMENTS & REFERENCES

In general I am very computer literate and work well in both OSX and Windows 11 and have no problems assembling / upgrading a computer.

Professionally I currently hold the title SAR/MSA as a member of Swedish Architects and I am also a registered member of ARB (UK). In the process of registering with AACA (AUS).

I am a member of Golden Key International Honour Society for Outstanding Scholastic Achievement.
